

April 30, 2009

Dear Carolyn and Jason,

Karen and I always hope that our strategies to assist our clients are successful and when we have that special occasion to work with committed and gifted folks in that process, our appreciation is most sincere. We send utmost thanks to you both for making last night's Master Broker Forum dinner an uncommonly well orchestrated and received gathering for Palmera de Cabarete. Such special pre-thought from program content to panel members and questions, to a beautiful venue and menu, to the final drawing, showcased our client in an atmosphere of successful professionalism. Nothing could be better for them than this exposure to the cream of the cream of our industry, particularly with the planning and support of you and your Board.

We look forward to a strong follow up with this exceptional group and in working with you to expand the long term positive effects of the event. Heartfelt thanks again for all you did to make us shine. And congratulations for a truly amazing accomplishment in making MBF the strong and vital organization it is today.

With all good wishes,

Sandy Carrier
